A warm evening with not much in the way of wind, 3 laps of the Doddington to billing roundabout course which is slightly over 25 miles.

Neil Barford in heavy training for his second tilt at the 24 hour event was the clear winner.

New member Steve West's produced a 1.6.44 for his first "25" and in doing so had a faster average than his 26.58 for the "10" last week; and off 10 minutes it was thought that he had taken the handicap until the calculations showed that Michael Church, with a time close to his best on this course, had just taken it.

Paul Ashdown thought that without the extra distance he may have gone under the hour for the first time.
