Blustery wind and rain earlier in the day did not deter a few hardy souls who had their work cut-out on the two outward legs on the two lap course based on the A6 near Rushden.

Liam and George repeated last week's positions with Kev Hardwick working hard to take the third place, having to do a solo effort after giving up on an expected 2 up ride with Alistair, his cycling partner had mechanical problems before the start.

Steve Adams and Harvey Smith rode as day members and put in good first times.

Charlie Berry had a good ride and the effort showed with him recovering in grass after the finish.

Next week's Wednesday evening event will be on the Salcey Forest course; the race signing on finishing at 6.30pm for a race start at 6.45pm.
