The morning started with great promise, warm no wind and the roadworks that had been threatening a shortened course had disappeared. As we were preparing to start the temperature dropped and along came the rain.

Unfortunately Tom Wildman hit a pot hole and came off, 78 year olds don't bounce to well. Simon Fitzhugh gallantly gave up his ride to assist him. Tom was able to ride back a little shaken sporting a few bruises and grazes, he will be stiff and sore tonight. At the other end of the age scale 14 year old Oliver proudly riding his brand new time trial bike missed a turn and went off course. A car was dispatched to go after him but he was going so fast it was too late.

Fastest on the day was Phil Melling in spite of handlebars coming loose. Of those that made it to the finish there were many good times and pb's recorded despite the adverse conditions. Bob Green rode round on his winter bike complete with mudguards.

Next event same course - Wed 13th April 6.45 start.
